EDUCATION

CHARUSAT University

2022 - Present

Bachelor of Technology - Computer Science Engineering | 2025 Batch

Aspire Public School

2023 - 2025

Higher Secondary School (12th GSEB - Science Stream)

Aspire Public School

Passed 2023

Secondary School (10th GSEB Board) - Grade: 87%

TECHNICAL SKILLS

Programming Languages: C, C++, Java, JavaScript, HTML5, CSS3

Hardware & IoT: Arduino, ESP32, ESP8266, Sensors, Circuit Design

Core Concepts: Data Structures & Algorithms (DSA), Problem Solving, Digital Electronics

Developer Tools: Git, GitHub, VS Code, Arduino IDE, Figma

FEATURED PROJECTS

1. ESP32 Voice Controlled Home Automation

- Designed IoT-based automation using ESP32 & voice command recognition over Wi-Fi.
- Integrated relay modules for real-time remote appliance control and feedback.

2. Farmer Guide Website

- Developed a Gujarati language web guide for agricultural recommendations.
- Provided insights on crop management, fertilizers, pest control, and government schemes.

3. Digital Voting System

- Built a hardware digital voting machine using logic gates, push buttons & CD4026 counters.
- Implemented debouncing circuits to ensure tamper-proof and accurate vote tallies.
